Re: Technical Assistance Contractor
Jackpile-Paguate Project
Contract No. 70-85

Dear Governor:

Attached are ten copies of the Management Plan for the Reclamation of the Jackpile-Paguate Uranium Mine. With the submission of this plan Jacobs has completed all of our tasks contained in our existing contract. We would be pleased to continue providing the Pueblo with technical support, but it will be necessary to modify our contract or to issue a new contract for Jacobs to continue to provide the required support.

The Pueblo has the potential to develop a very fine project and I wish you much success. If I can assist you in any way, please contact me.

Very truly yours
JACOBS ENGINEERING GROUP INC.

Marc E. Nelson
Project Manager
